SPC now partners with Tutor.com. Faculty can embed it directly in course content.

Step 1
Open your course in MyCourses, and click on Course Content.

Step 2
Click on the left-hand menu (or anywhere else in the course you’d like the Tutor.com link to live) and go to Add a module at the bottom of the menu.

Step 3
In the Add a module area, type Online Tutoring (or whatever title you prefer), and click Enter on the keyboard.

Step 4
In the new module, click Add Existing Activities

Online Tutoring

Add dates and restrictions...

Add Existing Activities
Bulk Edit
Step 5
Select External Learning Tools.

Step 6
In Add Activity, type tutor in the search bar at the top and hit Enter on the keyboard.

Step 7
After the search completes, click on Tutor.Com. This will add access to your course.

Step 8
Click on the newly formed External Learning Tool for Tutor.com.
Step 9
Click on the drop down menu next to the Tutor.com link, and select Edit Properties In-place.

Step 10
Click the checkmark button next to Open as External Resource.

Step 11
On the dropdown menu, click View Topic.

Step 12
View Topic should open a new window and take you to the Tutor.com landing page.
